

November 6, 2015

The following was sent to the KYAE listserv.

## **On behalf of Cody Davidson: Eligible to post-test update**

**Please continue to work your KAERS "Eligible to post-test" report at least once a week!**

### **FYI ...**

- 2,334 eligible students who have yet to make a level gain are in this fiscal year's NRS cohort
- More than 1,000 of these students have 75+ contact hours
- More than 600 of these students have 100+ contact hours

**Note:** Some of the 2,334 students on the "eligible to post-test" report are separated. Nonetheless, these students (i.e., those with 12 attendance hours or more) are in our NRS cohort this fiscal year. Therefore, please make an extra effort to re-recruit these individuals, sooner rather than later, so you may instruct and administer a post-test.
